

Electric Cargo and Passenger Tricycle

This electric tricycle is designed for cargo and passenger transport. It features a step-through frame for easy access, a front basket for smaller items, and a large rear cargo bed with a backrest.

Product Overview

Versatile Electric Mobility

This electric tricycle is engineered for both cargo transport and passenger convenience, offering a sustainable solution for urban and industrial logistics. Designed with a user-friendly step-through frame, it ensures easy mounting and dismounting for daily operations. The unit combines a practical front basket with a robust rear cargo bed, providing a dual-purpose hauling solution that effectively balances agility with utility.
