

## Electric Cargo Scooter with 350W Motor

This electric scooter is designed for cargo and food delivery, featuring a 6 Ah lithium-ion battery and a 350W motor for powerful performance. Its compact size provides excellent mobility in urban environments.

### ADDITIONAL IMAGES

### Overview

Compact design optimized for urban cargo and food delivery.

### Urban Delivery & Mobility Solution

This compact electric scooter is engineered for efficient urban mobility and cargo transport, making it an ideal choice for food delivery services and personal city commuting. Powered by a reliable 350W motor and a 36V lithium battery, it balances performance with a foldable, space-saving design. Its robust construction supports up to 100 kg, ensuring durability for daily professional or personal use.

## Performance

Powerful 350W motor performance for urban environments.

Motor Power	350 W
Maximum Speed	25 km/h
Endurance Range	30 km

## Battery & Charging

Battery Specification	36V 5.2Ah Lithium
Charging Time	3-4 hours

## Design & Build

Equipped with a rear basket for convenient item transport.

Practical seating and cargo features for daily delivery tasks.

Durable construction built for reliable city commuting.

Display	LCD
Maximum Load Capacity	100 kg
Tire Size	12 inch x 2.125
Brake System	Front Disc Brake, Rear Disc Brake

## Dimensions & Weight

### Physical Dimensions

State	Dimensions (cm)
Unfolded	122 x 59 x 95
Folded	122 x 25 x 60
