

Electric Cargo Tricycle with Flatbed

This electric tricycle is designed for cargo transport. It features a flatbed cargo area with side rails and is powered by an electric motor and battery system.

Overview

Versatile Electric Cargo Solution

This electric cargo tricycle offers a robust and eco-friendly solution for short-distance logistics and transport needs. Designed with a durable steel frame, it features a front scooter-style configuration for easy maneuverability and a spacious rear flatbed cargo area. The integrated electric motor and battery system provide efficient power, making it an ideal choice for businesses looking to optimize their internal transport or last-mile delivery operations.
