

Electric Cargo Tricycle with Front Basket

This electric tricycle features a front basket and a rear cargo bed with metal railing. It is equipped with a headlight, rearview mirrors, and a padded seat.

Product Overview

Versatile Electric Utility Solution

This electric cargo tricycle is designed for efficient, short-distance transport of goods in professional and urban environments. It features a robust steel frame with a convenient step-through design for ease of use and a spacious rear cargo bed equipped with protective metal railing. With integrated lighting and an optional manual pedal assist mode, it provides a flexible and sustainable solution for daily cargo hauling needs.
