

Electric Cargo Tricycle with Front Basket

This electric tricycle is designed for carrying loads. It features a front basket, a seat with a backrest, and a rear cargo bed with safety rails.

Overview

Utility Electric Cargo Tricycle

This electric cargo tricycle is engineered for efficient goods transportation and utility tasks. It features a robust design with a dedicated rear cargo bed equipped with safety rails, ensuring secure transport for various loads. The vehicle includes a comfortable seat with a backrest and a convenient front basket, making it an ideal solution for short-distance delivery or industrial site logistics.
