

Electric Cargo Tricycle with Rear Cargo Bed

This electric tricycle is designed for cargo transport. It features a sturdy frame, a rear cargo bed with side rails, and a comfortable seat with a backrest.

Overview

Professional Utility Cargo Tricycle

This electric cargo tricycle is engineered for reliable utility and efficient transport in professional environments. Featuring a robust frame and a spacious rear cargo bed with integrated side rails, it is built to handle heavy-duty logistics tasks with ease. The vehicle combines a powerful chain-drive electric system with ergonomic design elements like a backrest seat, ensuring stability and comfort during operation.
