

Electric Ceramic Herbal Medicine Pot

This electric ceramic pot is designed for traditional herbal decoction. It features a ceramic body with decorative illustrations, a detachable base with integrated heating element, and a control panel.

Product Overview

Traditional Decoction, Modern Convenience

This electric ceramic medicine pot combines the time-honored tradition of Chinese herbal decoction with modern automated convenience. Featuring a durable ceramic body, it is designed for precision brewing, offering both fast and slow cooking modes to suit various herbal requirements. With its automatic shut-off and beep notification system, it ensures your medicine is prepared perfectly every time without constant monitoring.
