Product Overview

Efficient Charcoal Ignition

This electric charcoal lighter is designed for quick and efficient ignition, making it an essential tool for outdoor grilling and barbecuing. It features a durable stainless steel heating element that ensures even heat distribution, while the integrated cooling down base allows for safe handling after use. With its extended reach and ergonomic design, this tool provides a secure and comfortable operation for professional and casual users alike.

Technical Specifications

Power Rating	800 W
Voltage & Frequency	230V~50-60Hz
Power Cord Length	1.8 m
Heating Element Material	Stainless Steel

Features

Key Features

- Cooling down base for safe storage
- Ergonomic handle design
- Extended wand for safe operation

Compliance & Certification

Certifications	GS, CE, EMC, ROHS, REACH
