

Electric Chopper Bicycle with Hi-Ten Steel Frame

This electric bicycle features a Hi-Ten steel frame and fork, providing a comfortable and durable ride. Equipped with a 36V power hub motor system, it offers pedal assistance for enhanced range and speed.

Overview

Electric Chopper Style Bicycle

This electric chopper bicycle combines classic cruiser aesthetics with modern electric propulsion. Built on a durable Hi-Ten steel frame, it features a powerful rear hub motor and a reliable 36V/14AH SLA battery system. Designed for both style and utility, it offers a comfortable ride with motorcycle-style forks and a specialized seat kit, making it an ideal choice for urban commuting and recreational riding.
