

Electric Commuter Bicycle with Storage

This electric bicycle is designed for city commuting. It features a step-through frame, disc brakes, and a rear storage box for added convenience.

Product Overview

Urban Commuting Solution

This electric commuter bicycle is specifically designed for efficient urban travel, combining practical storage solutions with reliable safety features. Its step-through frame ensures ease of use for riders of various heights, while the integrated rear storage box provides convenient space for daily essentials. Equipped with essential lighting and mirrors, this bike is built to navigate city streets safely and comfortably.
