

Electric Commuter Motorcycle with Basket

This electric motorcycle is designed for urban commuting. It features a step-through frame, front basket, rear storage box, comfortable seat with a backrest, and integrated lighting.

Overview

Efficient Commuter Solution

This electric commuter motorcycle is designed for practical urban mobility, featuring a robust steel frame and a convenient step-through design for easy access. Equipped with a powerful 2000W motor and versatile battery options, it delivers reliable performance for daily transportation needs. The inclusion of both a front basket and rear storage box enhances its utility, making it an ideal choice for short-distance cargo transport and commuting.
