

Electric Commuter Scooter with 1200W Motor

This electric scooter is equipped with a 1200W motor and a 48V 20Ah lithium battery, providing a maximum speed of 45 km/h and a range of 60km on a single charge. It features disk/drum brakes, aluminum wheel hubs, and a comfortable design for urban commuting.

Overview

Efficient Urban Mobility

This 1200W electric commuter scooter is designed for efficient and eco-friendly urban travel. Featuring a robust lithium battery system and a reliable 45 km/h top speed, it provides a practical solution for daily commuting needs. Its durable construction, including aluminum wheel hubs and a stable braking system, ensures both performance and safety for professional riders.
