Product Overview

Professional Convection Baking Solution

This 5-tray convection oven is engineered for commercial baking environments, combining robust 1.5mm stainless steel construction with advanced insulation for consistent thermal performance. It features a versatile design that accommodates multiple tray sizes and includes a steam function, making it ideal for a wide range of products from soft breads to dried fruits. Built for efficiency and ease of use, the unit includes a full glass viewing window, detachable cleaning components, and a mobile base with locking casters.
