Product Overview

Versatile Cordless Cleaning Solution

This electric cordless floor cleaning mop is designed to make floor maintenance effortless and efficient. Featuring a high-frequency reciprocating movement of 900 RPM, it mimics human scrubbing action to effectively remove dirt and grime. With a versatile design that supports dry wiping, wet mopping, and polishing, it is suitable for various surfaces including wood, ceramic, laminate, and marble.

Performance & Technical

The mop features three distinct working modes and a flexible connecting tube for cleaning hard-to-reach areas.

Working Modes

- Dry Wipe (for water stains)
- Wet Wipe (for stubborn stains)
- Polish (for floor maintenance)

Reciprocating Speed	900 RPM
Battery Capacity	2000 mAh
Endurance	55 min

Design & Usability

High-frequency reciprocating movement and specialized pad options for different cleaning needs.

Compatible Pads

Pad Type	Function
Disposable Pads	Biodegradable, single-use
Standard Pads	Spiral hard fibers for stains, soft fibers for absorption
Looped Pads	Looped pile for electrostatic hair adsorption

Rotation Angle	270 degrees
Key Features	Cordless Design, LED Lighting, Battery Display, Detachable Handle, Electric Spray

Application

Suitable Surfaces

Wooden Floors • Ceramic Tiles • Laminate Floors • Marble
