

Electric Drip Coffee Maker with Carafe

This electric drip coffee maker is designed for home use. It features a transparent water reservoir, a swing-out filter basket, and a glass carafe.

Overview

Professional Drip Coffee Experience

The CMJ-2018 Electric Drip Coffee Maker offers a perfect balance of elegance and functionality for daily brewing needs. With a generous 1.2L capacity, it is capable of brewing up to 10 cups of coffee at once, making it suitable for both home and office environments. Its durable design includes user-friendly features like an anti-drip system and a warm-keeping plate to ensure your coffee stays at the ideal temperature.
