

Electric Drip Coffee Maker with Digital Timer

This electric drip coffee maker has a 1.5-liter capacity, yielding 12-15 cups of coffee. It features a digital timer control, LCD display, and a keep-warm plate.

Product Overview

Professional Brewing Performance

This electric drip coffee maker combines modern aesthetics with high-performance brewing capabilities. Featuring a stainless steel decorative finish and a user-friendly digital timer with LCD display, it is designed for both convenience and reliability. With a generous 1.5-liter capacity and advanced features like an anti-drip device and a non-stick keep-warm plate, this appliance delivers a consistent and efficient coffee brewing experience.
