

Electric Dry Iron with Adjustable Temperature

This dry iron is designed for AC 220-240V power supply and consumes 1000-1200W. It features a swivel cord, adjustable temperature knob, and a ceramic coated soleplate.

Overview

High-Performance Electric Dry Iron

This professional-grade electric dry iron is designed for efficiency and precision, featuring a heavy-duty 1.7KG build and a powerful 1000-1200W heating element. The ceramic-coated soleplate ensures smooth gliding across various fabrics, while the adjustable temperature control with six distinct settings allows for tailored garment care. Built with safety and convenience in mind, it includes overheat protection, an automatic pilot lamp, and a swivel cord for effortless maneuverability.

Key Performance Metrics

Core Specifications

1200 W

Max Power

1.7 kg

Unit Weight

6

Temp Settings

Technical Specifications

Soleplate Material

Ceramic Coating • Gold/Grey Finish • Button Grooves

Safety & Control

- Overheat protection
- Auto-off thermostat
- Automatic pilot lamp
- Heel rest stand-by position

Operating Voltage

AC 220-240V

Design & Ergonomics

Build Features

- Silver/Gold metal cover
- Swivel / Interchangeable cord
- Fabric guide printed on body
- Adjustable temperature knob

Fabric Compatibility

Cotton, Silk, Linen, Synthetic
