

# Electric Drywall Screwdriver

This professional electric drywall screwdriver is designed for efficient and precise screw driving in drywall and similar materials. It features adjustable depth settings, a high-torque motor, and ergonomic design for comfortable handling.

## Product Overview

### Professional Electric Drywall Screwdriver

This high-performance electric screwdriver is engineered specifically for drywall installation and renovation projects. It features a high-torque motor and precision depth control, ensuring consistent and professional results on every screw. Designed with ergonomics in mind, the tool offers comfortable handling for extended use on demanding construction sites.

## Technical Specifications

### Speed

**2800 r/min**  
Max Speed

Rated Power	500 W
Voltage	220V
Frequency	50 Hz

## Key Features

### Main Features

- Adjustable depth settings for precision
- High-torque motor for efficient fastening
- Ergonomic handle design for user comfort
- Optimized for drywall and related building materials

Ideal Applications	Construction, Renovation, Installation
