

Electric Epilator with Interchangeable Epilating and Shaving Heads

This electric epilator features both epilating and shaving heads on a single device. It offers two-speed functionality for customized hair removal.

Product Overview

Versatile 2-in-1 Hair Removal

This electric epilator offers a versatile solution for hair removal, combining both epilating and shaving functions in a single device. Designed for efficiency, it can cut hair as short as 0.5mm, providing smooth skin for up to six weeks. With both cord and cordless capabilities, it offers flexibility for various grooming needs.
