Product Overview

Versatile Electric Cutting Solution

These portable electric scissors are designed for efficient cutting across a wide range of materials, from delicate textiles to industrial-grade cardboard and leather. The device features a powerful 35W motor and utilizes durable tungsten steel blades, ensuring high performance with low energy consumption. With dual operation modes—corded for continuous use or battery-powered for portability—it is an ideal tool for both household crafting and industrial manufacturing environments.

Performance Metrics

Cutting Capacity

10 mm Max Cutting Depth	35 W Output Power	2 hours Charging Time
-----------------------------------	-----------------------------	---------------------------------

Material Cutting Guide

Thickness	Materials
10mm	Underwear, cloth, textile, knitwear, felt, blanket, curtain
7mm	Five-layer cardboard, 17 sheets of 80g A4 paper
5mm	Leather, carpet, plastic, fiberglass, rubber

Technical Specifications

Blade Material	Tungsten steel
Charger Voltage	100-240V
Weight	0.376 kg
Operation Modes	Corded, Battery-powered

Included Accessories

Included Items

- Fuselage
- Cutter Head A (Sharp/Short working life)
- Cutter Head B (Blunt/Long working life)
- Battery
- Power Adapter
- Charging Stand
