

Electric Floor Sweeper

This electric floor sweeper is designed for efficient cleaning of indoor and outdoor spaces. It features rotating brushes for effective debris collection and an electric motor for quiet operation.

Overview

Compact Electric Sweeping Solution

The NJ-D1400A is a compact electric sweeper engineered for efficient cleaning across both indoor and outdoor environments. Utilizing an electric motor, it provides a quiet and emission-free operation suitable for sensitive areas. Its durable construction and rotating brush system ensure effective debris collection, making it a cost-effective and environmentally friendly choice for facility maintenance.

Key Features

Core Advantages

- Emission-free electric operation
- Quiet performance for indoor use
- Durable construction for longevity
- Effective debris collection via rotating brushes

Applications

Ideal Use Cases

Warehouses, Parking Lots, Pedestrian Areas, Indoor Facilities, Outdoor Spaces
