

Electric Foot Spa with Massage Rollers

This electric foot spa is designed to provide a relaxing and therapeutic foot massage experience. It features integrated massage rollers and water jets to stimulate pressure points and soothe tired feet.

Overview

Therapeutic Foot Care Solution

The LY-203A Electric Foot Spa is engineered to provide a professional-grade relaxation experience in a domestic setting. Featuring integrated massage rollers and targeted water jets, the device actively stimulates pressure points to soothe tired muscles. Users can easily customize their session with precise temperature controls, multiple massage modes, and convenient timer settings for a tailored wellness routine.
