

Electric Fuel Pump for LADA

This electric fuel pump provides consistent fuel delivery. It is designed for LADA vehicles to ensure optimal engine performance.

Product Overview

High-Performance Electric Fuel Pump

This electric fuel pump is engineered to provide consistent and reliable fuel delivery, ensuring optimal engine performance for LADA vehicles. Manufactured to meet rigorous industry standards, each unit undergoes 100% testing to guarantee durability and operational precision. It serves as a direct replacement solution designed to meet or exceed original equipment specifications.

Technical Specifications

Operating Pressure	3 Bar
Flow Rate	85 L/h
Cross Reference	BOSCH: 0 580 454 035
Part Number	EFP381802G

Manufacturing Standards

Quality Assurance

- 100% tested
- Performance tested
- Environmental tested
- Durability tested

Certifications	TUV, ISO/TS 16949:2002, CE
