

Electric Fuel Pump for OPEL and FIAT

This electric fuel pump is designed for OPEL and FIAT vehicles. It ensures reliable fuel delivery to the engine, maintaining optimal performance and fuel efficiency.

Overview

High-Performance Electric Fuel Pump

This electric fuel pump is engineered for precise fuel delivery in compatible OPEL and FIAT vehicles. Manufactured to rigorous standards, each unit undergoes 100% testing to ensure reliability, optimal engine performance, and fuel efficiency. It serves as a direct, high-quality replacement for original equipment, designed for durability and long service life.

Performance Metrics

Key Performance Metrics

3 Bar

Operating Pressure

100 L/h

Flow Rate

Compatibility

Cross Reference Part Numbers

- BOSCH: 0 580 453 966
- OPEL: 8 15 019

Vehicle Applications

OPEL, FIAT

Manufacturing Standards

Quality Certifications

TÜV • ISO/TS 16949:2002 • CE

Daily Production Output

18000 pcs/day
