

Electric Fuel Pump Module for Chevy, Oldsmobile, Pontiac

This electric fuel pump module is designed for optimal fuel delivery and performance. The module features robust construction and precise engineering to ensure reliable operation.

Product Overview

High-Performance Fuel Delivery Module

This electric fuel pump module is precision-engineered to provide optimal fuel delivery and reliable performance for compatible vehicles. Designed to meet or exceed OEM standards, the unit includes an integrated fuel level sending unit for accurate gauge readings. Each module undergoes rigorous 100% testing to ensure durability and consistent operation under various driving conditions.

Technical Specifications

Key Performance Metrics

3 Bar Pressure	120 L/h Flow Rate
--------------------------	-----------------------------

Operating Pressure	3 Bar
Flow Rate	120 L/h

Compatibility & Cross-Reference

Cross Reference Numbers

Brand	Part Number
AIRTEX	E3372M
ACDELCO	MU1265

Compatible Makes	CHEVY, OLDSMOBILE, PONTIAC
