

Electric Garden Shredder with 45mm Cutting Capacity

This electric garden shredder is designed for powerful shredding of yard waste, featuring a cutting capacity of up to 45mm. It is equipped with a transparent 40L collection box and large rear wheels for easy moving.

Overview

High-Efficiency Garden Shredder

This electric garden shredder is engineered for powerful yard waste processing using a high-speed 'Powerdrive' motor. It features a versatile design with a removable hopper for easy loading and a robust 45mm cutting capacity to handle various debris types. Designed for both convenience and safety, it includes a transparent collection box, large wheels for mobility, and multiple safety interlocks.
