

Electric Grill Toaster with Non-Stick Plates

This electric grill toaster features non-stick plates for easy cooking and cleaning. It is equipped with cool-touch handles and a temperature control knob.

Product Overview

Versatile Grilling Solution

This electric grill toaster is designed for efficient, healthy cooking, featuring a declined grilling surface with an integrated oil drip tray to promote low-fat meal preparation. Equipped with non-stick plates and a large cooking area, it is ideal for preparing paninis, grilled sandwiches, and various snacks with ease. The unit includes user-friendly features such as a temperature control knob, cool-touch handles, and clear indicator lights for safe and consistent operation.
