

Electric Grill with Digital Display

This electric grill features a compact design with a brushed metal finish. It includes a digital display showing temperature and timer settings.

Product Overview

High-Performance Electric Grilling

Experience professional-grade grilling with this compact electric unit, designed for speed and precision. Capable of reaching temperatures up to 850 degrees, it cooks food three times faster than a standard electric oven. With a convenient 3-minute cook time, it is an ideal solution for quick, high-quality meal preparation.
