

Electric Grill with Rotating Skewers

This electric grill features both a top grilling surface and a lower level with rotating skewers. It includes a temperature control knob and a stainless steel and black casing.

Product Overview

Versatile Electric Grilling Solution

This electric grill offers a comprehensive cooking experience, featuring both a detachable non-stick iron plate for traditional grilling and an automated system for skewers and hot dogs. With 1200W of power and adjustable temperature control, it provides consistent results for meats and vegetables. The design includes convenient features like a removable kabob tray, cord storage, and a durable stainless steel wrapped control box for longevity and ease of use.
