

Electric Hand Planer for Woodworking

The electric hand planer is a power tool designed for woodworking applications. It features adjustable depth settings for precise planing and a comfortable grip for ease of use.

Product Overview

Professional Woodworking Performance

The Electric Hand Planer is engineered for efficiency and precision in demanding woodworking environments. Featuring a robust motor, it excels at smoothing rough surfaces, sizing timber, and creating rebates with ease. Designed with user ergonomics in mind, the tool includes a comfortable grip and essential safety features like a blade guard and an integrated dust extraction port.

Technical Specifications

Primary Applications

- Smoothing rough surfaces
- Timber sizing
- Rebate creation

Model Identifier	CYDD-DD2-82X1
Key Features	Adjustable Depth, Dust Extraction, Blade Guard, Ergonomic Grip
