

Electric Hand Planer for Woodworking

The electric hand planer is a power tool designed for smoothing and shaping wood surfaces. Its adjustable depth settings allow for precise control over the amount of material removed, making it suitable for leveling uneven surfaces, creating rabbets, and chamfering edges.

Product Overview

High-Performance Electric Hand Planer

This professional-grade electric hand planer is engineered for precision smoothing and shaping of various wood surfaces. Featuring a high-speed rotating blade system, it allows for efficient material removal while maintaining excellent control. The ergonomic design ensures comfort during extended woodworking sessions, making it an ideal choice for leveling, rabbeting, and chamfering tasks.

Technical Specifications

Core Features

- High-speed rotating blade system
- Adjustable cutting depth
- Ergonomic handle design
- Powerful motor for efficient material removal

Key Applications

Surface Leveling, Rabbeting, Chamfering, Wood Shaping
