

Electric Hand Planer for Woodworking

This electric hand planer is ideal for woodworking. It features a powerful motor, adjustable cutting depth, and a dust extraction port.

Product Overview

Professional Woodworking Hand Planer

The CYYH-YH103 electric hand planer is a high-performance tool engineered for precision woodworking tasks. It features a robust, powerful motor that enables efficient material removal, making it ideal for smoothing rough timber surfaces, accurate sizing, and creating clean rebates. With its adjustable cutting depth and integrated dust extraction port, it provides users with enhanced control and a cleaner working environment.

Technical Specifications

Integrated Features

- High-power motor
- Adjustable cutting depth
- Built-in dust extraction port

Model Number	CYYH-YH103
Key Applications	Surface Smoothing, Timber Sizing, Rebating

Performance

Operational Capabilities

Heavy Duty • Precision Control • Dust Managed
