

Electric Ice Shaver with Collection Container

This electric ice shaver is designed for home use. It features a transparent container to collect shaved ice and a clear lid to observe the shaving process.

Product Overview

Efficient Ice Shaving Solution

This electric ice shaver is designed for convenience and efficiency in food preparation environments. Featuring a robust DC motor and a 1L transparent collection bowl, it allows for quick and easy shaving of ice for beverages and desserts. Its compact, stable design with anti-slip feet ensures safety and ease of use on any countertop.
