

Electric Induction Cooktop with Cookware Set

This electric induction cooktop is suitable for both purple clay and metal cookware. It includes a purple clay wok, a purple soup boiler, and a metal pan.

Product Overview

Versatile Induction Cooking Solution

This advanced induction cooktop offers exceptional flexibility by supporting both traditional purple clay cookware and standard metal cookware. Equipped with an intelligent cookware identification system, it automatically detects the material type to optimize performance. The set comes complete with a purple clay wok, a purple soup boiler, and a metal pan, providing a comprehensive solution for diverse culinary needs.
