

# Electric Iron with Adjustable Temperature

This electric iron is designed for efficient garment care. It features adjustable temperature settings, a steam function, and a durable soleplate.

## Product Overview

### Professional Garment Care Solution

The TY2003A electric iron is a high-performance tool designed for efficient and reliable garment care in professional settings. Featuring a precision-engineered soleplate and a comprehensive steam system, it ensures smooth gliding and effective wrinkle removal across diverse fabric types. With an emphasis on safety and usability, this iron integrates an automatic shut-off function and ergonomic controls to enhance productivity and operator safety.

## Key Features

### Ergonomics

- Ergonomic handle for comfortable grip
- Swivel cord for enhanced maneuverability
- Intuitive control interface

### Safety Certifications

Auto-Shutoff, Overheat Protection

## Technical Specifications

### Functions

Adjustable Temperature • Steam Generation • Smooth Gliding Soleplate
