

Electric Iron with Retractable Cord

This electric iron features a convenient rewind function for easy cord storage. It also offers powerful steam performance for efficient ironing.

Product Overview

Professional Steam Performance

This 1500W electric iron is designed for efficiency and convenience in high-volume environments. Featuring a powerful vertical steam function and a unique retractable cord mechanism, it streamlines the ironing process while ensuring easy storage. With integrated self-cleaning, anti-calc, and anti-drip technologies, it maintains high performance over extended periods of professional use.

Operational Highlights

- Cord rewinding function
- Steam trigger
- Temperature indicator

Technical Specifications

Performance Metrics

1500 W

Power Rating

120 V

Voltage

330 ml

Water Tank Capacity

Soleplate Variations

- Non-stick coating
- Stainless steel
- Ceramic coating

Functional Capabilities

Dry Ironing, Spray Function, Steam Control, Vertical Steam, Self-cleaning

Safety and Maintenance

Safety Features

Anti-calc • Anti-drip • Auto-shut off
