

Electric Kettle with Green Accents

This electric kettle is designed for boiling water quickly and efficiently. The kettle features a white body with green accents on the handle, lid, and body, providing a modern and stylish look.

Product Overview

Modern Electric Kettle Design

This electric kettle combines efficient boiling performance with a contemporary aesthetic, making it an excellent addition to any office or professional pantry. Featuring a sleek white finish complemented by vibrant green accents on the handle and lid, it offers both visual appeal and practical usability. The integrated spout ensures smooth pouring, while the dedicated base allows for convenient placement and cord management.
