

Electric Kettle with Stainless Steel Interior

This electric kettle boils water rapidly in 3-6 minutes. It has safety features such as automatic shut-off and boil-dry protection.

Overview

Professional Series Electric Kettle

The JK348 series electric kettle is designed for efficiency and safety in professional environments. Featuring a high-quality stainless steel interior and food-grade components, it ensures hygiene and durability for daily use. With advanced steam sensing technology, this kettle provides precise boiling point detection and rapid heating, making it a reliable solution for various settings.

Safety Features

Steam Sensing Auto-Shutoff, Boil-Dry Protection, High-Temperature Protection

Design & Construction

Material Composition

- Food-grade high-quality stainless steel interior
- Food-grade heat-resistant plastic components
- Concealed heating element

Usability Features

- 360-degree rotating base
- Detachable body for easy handling
- Integrated cord storage compartment
- Water level indicator

Model Range

Available Series Variants

Model	Capacity (L)	Power (W)
JK315	1.7	1800
JK348	1.2	1500
JK18	0.8	1000
JK333	0.8	1000
JK297	0.8	1000
