

Electric Kitchen Blender with Multiple Speed Settings

This electric blender is designed for everyday kitchen use. It features a durable blending jar, multiple speed settings, a pulse function, and a safety lock mechanism.

Product Overview

Professional Kitchen Performance

This electric kitchen blender is designed for efficiency and versatility in a professional or home kitchen environment. Powered by a robust 400W long-life motor, it handles a variety of tasks from blending smoothies and soups to grinding coffee beans and nuts. With safety-focused features like overheat protection and a secure locking mechanism, this appliance ensures reliable and consistent results.
