

Electric Knapsack Sprayer with Adjustable Nozzle

This electric knapsack sprayer offers a portable and efficient spraying solution for agricultural and gardening tasks. It features a 20-liter capacity tank, a rechargeable lithium battery, and an adjustable spray nozzle.

Overview

Efficient Agricultural Spraying Solution

This electric knapsack sprayer is designed to provide a portable and highly efficient solution for diverse agricultural and gardening applications. Equipped with a 20-liter capacity tank and a rechargeable lithium battery, it ensures long-lasting operation for various spraying tasks. The inclusion of an adjustable nozzle allows for versatile spray patterns, while the ergonomic design facilitates comfortable carrying and ease of use for professional operators.
