

Electric Log Splitter with Wheels

This portable electric log splitter is designed for efficient and safe wood splitting. Its small size, lightweight design, and built-in wheels make it easy to deliver to any work site.

Product Overview

High-Efficiency Electric Log Splitting

This electric log splitter delivers 5 tons of splitting force, providing a reliable and maintenance-free alternative to gas-powered machines. Designed for safety and ease of use, it features a controlled hydraulic ram system and a two-hand safety operation mechanism. Built with durable welded steel, this tool is optimized for longevity and convenience in both home and light commercial environments.

Technical Specifications

Splitting Force

5 ton

Splitting Force

Hydraulic Cylinder Diameter	55 mm
Power Source	Electric

Design & Construction

Material	Welded steel construction
Mobility	Wheels included, Easy maneuverability

Safety & Operation

Safety Systems

- Two-Hand Safety Control
- Enclosed hydraulic ram
- Controlled splitting action
