

Electric Meat Grinder with Glass Bowl

This electric meat grinder is designed for home use. It features a dual-blade system and a 1.2-liter capacity glass bowl for processing various meats and vegetables.

Product Overview

Versatile Kitchen Appliance

This electric meat grinder is designed for efficient food preparation in home kitchens. Equipped with a dual-blade system, it easily handles meat mincing, chopping vegetables, and preparing ingredients like minced garlic. Its compact design ensures easy storage, while the clear glass bowl allows for simple monitoring of the grinding process.
