

Electric Misting Fan for Indoor Use

This misting fan integrates the functionality of an electric fan with a misting system to provide efficient cooling. It features a control panel for adjusting fan speed and misting intensity, designed for ease of use and maintenance.

Product Overview

Efficient Cooling Solution

The 701A misting fan is a versatile household appliance engineered for effective air conditioning and ventilation in indoor environments. By combining a standard electric fan with an integrated misting system, it emits a fine water spray to significantly enhance cooling performance. Designed for small to medium-sized rooms, this unit features intuitive controls for adjusting both airflow and misting intensity, ensuring comfort and ease of use.

Technical Specifications

Model Number	701A
Recommended Use	Indoor, Residential, Small Room, Medium Room

Features

Core Functionalities

- Integrated misting system
- Adjustable fan speed
- Adjustable misting intensity
- Protective safety grill
- Easy-to-use control panel

Safety & Compliance
