Overview

Modern design featuring a comfortable seat and robust bodywork.

Efficient Urban Commuting

This electric motorcycle is designed for efficient urban commuting, featuring a powerful 1500W motor and a reliable 72V lithium battery. It offers a smooth, quiet ride with a top speed of 45 km/h, making it an ideal eco-friendly alternative to gasoline vehicles. With its robust carbon steel frame, advanced hydraulic disc brakes, and integrated LED lighting system, it ensures both performance and safety for daily riders.

Power & Performance

Key Performance Metrics

1500 W Motor Power	45 km/h Top Speed	30 % Climbing Capacity	200 kg Max Payload
------------------------------	-----------------------------	----------------------------------	------------------------------

0-45 km/h Acceleration	10 s
-------------------------------	-------------

Chassis & Dimensions

12-inch tires designed for smoother rides and better grip.

Dual-piston hydraulic disc brakes ensure timely and safe stopping.

Physical Dimensions

Dimension	Value
Length x Width x Height	1830 x 710 x 1095 mm
Wheelbase	1350 mm
Min. Ground Clearance	170 mm
Seat Height	800 mm

Frame and Suspension

- Frame Material: High quality carbon steel
- Swingarm: Die casting of aluminum alloy
- Front Shock Absorber: Oil Damping Direct Acting
- Rear Shock Absorber: Oil Damping Direct Acting

Battery & Charging

Battery and Charging Details

- Battery Type: Lithium
- Voltage: 72V
- Capacity: 30Ah
- Charge Time: 6 hours (at 5A)

Electrical & Safety

Equipped with bright LED lighting for night safety.

Tail light and rear assembly view.

Clear LCD dashboard for essential riding information.

Safety and Electrical
