Overview

Modern aerodynamic design with full fairing and advanced suspension system.

Sleek, modern styling suitable for urban commuting and recreational riding.

High-Performance Electric Motorcycle

This electric motorcycle is engineered for adult riders, offering a powerful riding experience with motor options ranging from 3000W to 12000W. It features a robust, reinforced steel frame and advanced hydraulic suspension, ensuring stability and comfort on various terrains. Designed for both urban commuting and recreational use, it combines modern aesthetics with practical performance metrics like a 160 km/h top speed and up to 200 km range.
