

Electric Mountain Bicycle with High-Speed Motor

This electric mountain bike features a high-speed motor for powerful performance. Its large-capacity battery ensures long-lasting rides.

Overview

High-Performance Electric Mountain Bike

Designed for versatility and performance, this electric mountain bike features a robust aluminum alloy frame suitable for various terrains. Equipped with a 250W brushless rear motor and a 36V lithium battery, it delivers consistent power for commuting or off-road excursions. The inclusion of a 7-speed Shimano derailleur and responsive disc brakes ensures riders have precise control and reliable stopping power in diverse conditions.
