

Electric Multi-Blade Fan

This electric fan is designed for efficient air circulation in diverse settings. Its multi-blade design maximizes airflow while minimizing noise, and it features adjustable tilt and oscillation for customized air direction.

Overview

High-Performance Air Circulation

The CIF-45BP is a high-performance electric fan engineered for efficient air circulation in diverse environments. Featuring a robust construction and a powerful motor, this unit is designed to provide reliable cooling for homes, offices, and commercial spaces. Its sophisticated multi-blade design maximizes airflow while effectively minimizing operational noise.

Key Features

Airflow & Control

- Multi-blade design for optimized airflow
- Adjustable tilt functionality
- Oscillation for wide-area coverage

Noise Level

Low Noise Operation

Technical Specifications

Model Number	CIF-45BP
Construction	Robust Construction, High-Performance Motor

Applications

Recommended Use	Residential, Office, Commercial Ventilation
