

Electric Multi-Functional Rice Cooker

This multi-functional electric rice cooker is designed for efficient and convenient rice preparation. It features an automatic keep-warm function and a non-stick inner pot, along with multiple cooking settings.

Overview

Professional Rice Preparation

This premium multi-functional rice cooker is designed for high-efficiency commercial or professional kitchen use. Featuring a 10-cup capacity and durable stainless steel construction, it ensures consistent results across various cooking settings. The integrated non-stick inner pot and intelligent heat management make it an essential tool for high-volume, convenient meal preparation.
