

Electric Non-Stick Skillet with Glass Lid

This electric skillet features a non-stick cooking surface and a tempered glass lid. It has adjustable temperature control and cool-touch handles.

Overview

Versatile Electric Skillet

This electric skillet is designed for efficiency and ease in professional kitchen environments, featuring a high-quality non-stick surface for seamless food release and cleanup. The integrated heating system ensures even heat distribution, while the tempered glass lid allows chefs to monitor cooking progress without losing heat. With adjustable temperature controls and cool-touch handles, this appliance offers both precision and safety for various culinary tasks including frying, sautéing, and simmering.
