

Electric Pallet Jack 2000kg Capacity

This electric pallet jack is designed for efficient material handling in warehouses. It features a robust steel frame construction for durability and long-lasting performance.

Overview

Efficient Material Handling Solution

This electric pallet jack is engineered for high-performance material handling within warehouses and distribution centers. Featuring a robust steel frame, it ensures long-lasting durability while the electric motor facilitates smooth, quiet operation to minimize operator fatigue. Its compact design and tight turning radius make it an ideal choice for maneuvering in confined spaces and efficient truck loading.

Performance Metrics

Lifting Capacity

2000 kg
Capacity

200 mm
Max Lift Height

Technical Specifications

Key Features

- Electric motor for quiet operation
- Ergonomic handle and intuitive controls
- Compact design for tight spaces
- Easily accessible battery for quick charging

Construction Material

Robust Steel Frame

Applications

Primary Use Cases

Warehouse Logistics, Distribution Centers, Truck Loading/Unloading, Pallet Transport
